The answer for the Environmental Impact is No.
The answers for the remaining questions are also no. However I thought those questions did not have to be answered unless status was common carrier.

Thanks, your application has now passed autogrant with the exception of the following certification questions.

You answered yes to the Environmental Impact
n/a to Alien Applicant
n/a to Foreign Corporation
n/a to Alien Officer
n/a to Foreign Control

Can you give me yes or no answers to the ones you answered n/a to and did you intend to answer yes to Environmental Impact?

T.\
