Subject: FCC License Correction

Eleanor,

It was very nice speaking with you yesterday.

Here is the letter requesting the correction to Skyview Satellite Networks' earth station license (Call Sign: E990348). The request is to correct the EIRP density on Page 1, Item B (Particulars of Operations) from the 3.80 dBW/4 kHz to 33.80 dBW/4 kHz for the 115KG7W emission for frequencies 5925.0 - 6310.0 MHz.

Thank You

Jeff Cowles
