Eleanor,

I did not file a radiation hazard study for the ANTENNAS 1.2M. AND 2.4M because there will not be any increase in power from the existing Channel Master 1.2 and 2.4 licensed and on file with the commission.

Thanks,

Stan

Hi Eleanor,

Has the status changed or is this still in some kind of limbo? What can I do to assist? %%

On 1/26/2004 an application was filed to modify FCC license Call Sign; E020101 and File No. SES-MOD-20040126-00118; and an application was filed to modify FCC license Call Sign; E030029 and File No. SES-MOD-20040126-00119

The status of the application is Internet Not Processed. My question for you and my concern is what does this mean, and is there a requirement for me to do more with this filing?

Thank you,

Stan
