Towanda,

The that went on public notice shows Kapolei, as the site location. The site location should be Mt Jackson, with the site information not changing from the existing license before the mod.

Thank you.

Stan

OK, you are not changing the site location either. Then what is the need for the amendment because you asked for the Right and Left Circular on the MOD. I'm confused.

So do I need to change the location back to where is was with you as the site contact and change the coordinates back.

T.

Towanda,

Per our conversation today the amended request is only for the following;

- 1) Only add R & L Circular Polarity to all the Transmit and Receive frequencies associated with the 15 Meter Antenna.
- 2) The Earth station Site Location will not change from the existing license. The site location will remain at MT Jackson, Virginia.
- 3) The Estrela do Sul 1 Satellite will only be used as a point of communication with the 15 Meter Antenna.

Thank you,

Stan
