43. Description. (Summarize the nature of the application and the services to be provided).

This application requests modification of earth station authorization E030008 (SES-MOD-20040407-00528) to add as a point of communication space station S2191 at 103 degrees W.L. This satellite has been coordinated with the U.S. Government. In addition, this application corrects the common name of the points of communication at 99 degrees W.L. and 101 degrees W.L. to be S2133 and S2132, respectively.
