Eddie:

Attached is a .PDF copy of the pending Hughes Network System Inc.'s Ka-band earth station application for your review.

I am going to grant this application with the following condition, on Monday September 20, 2004 if I don't hear anything from you.

"The 17.8-20.2 GHz band is shared with U.S. Government space stations and associated earth stations in the Fixed-Satellite Service. The satellite network of which this is a cooperating earth station is subject to coordination under US334 and operation of this earth station will be subject to any technical constraints resulting from this coordination."

If you have any questions or concerns, please let me know.

Thanks.

Shahnaz Ghavami
