Subject: E970051

Jeanette,

By this email we seek to clarify our pending modification application (SES-MOD-20040810-01188) for the above-referenced earth station facility. The application seeks to add the standard Ku-band frequencies to the authorization on an ALSAT basis. As to the pre-existing extended Ku-band frequencies, they should be designated for use with Galaxy 3C (at 95.0 WL) and Galaxy 11 (at 91.0 WL) as specific points of communication.

Thank you so much for your continued assistance on this.

Best,
Ryan
