Subject: CNN application E890835

Towanda,

After discussing the modification application for E890835, we would like to make the following changes:

- 1) the drug certification question should have been answered "Yes"
- 2) question E15 should be answered "Yes"
- 3) question E16 should be answered "N/A"
- 4) a power density reduction of 1.45 dB for Emission Designator 360G7W

Please do not hesitate to contact me should you have any questions. Thank you for your patience and cooperation.

Michael T. Haas
