Hi Towanda,

I spoke to Raymond Benedict and the following changes should be made to the application he filed for E950270.

1.. For the question regarding remote control points. The remote control point should be the following:

524 West 57 th Street

New York, NY 10019

2.. For the question asking if environmental impact would result if this license was granted, the answer should be NO

3.. For the FAA questions, all of the answers should be NO

If you have any additional questions, please feel free to contact me at (202) 457-4505.

Victoria Bell
