Subject: Amendment to SESMOD20051007-01380

Thanks very much for your fax. We have submitted an amended application (IB2005002394, filed today) and revised RF study. Updates are as follows:

In "E40", "E48" and "E50 (Maximum ERP per Carrier), changed the EIRP from 64.73 dBW to 64.33 dBW.

Changed "E49", Maximum ERIP Density per Carrier (dBW/4kHz) from 25.19 dBW/4 KHz to 24.79 dBW/4 KHz (digital modulation)

Changed "E49", Maximum EIRP density per carrier (dBW/4KHz) from 37.73 to 37.33 dBW/4 KHz (analog modulation section).

Thanks again,
