Subject: Revision of SES-MOD-20051206-01794

Dear Ms. Ghavami:

Thank you for your comments regarding the recently filed FCC form 312 Application. Unfortunately there were errors in our submission and by way of this email I wish to correct them.

Filed: Total EIRP 79.0 dBW Correct: 78.3 dBW

Filed: EIRP Density 39.5 dBW/4kHz Correct: 38.8 dBW/4kHz

Filed: Total Input Power 100 watts Correct: 98 watts

Filed: Eastern Elevation Angle 39.8 Correct: 40.7

Filed: Western Azimuth Angle 233.5 Correct: 234.5

I also want to confirm that our PDF copy of the application indicates the Point of Communication was designated as ALSAT.

I am most appreciative of your review and comments and hope this email will serve to provided the corrected information.

Thanks and best regards,

Steve Moreen
