**Subject:** Misprint of FCC Authorization - Chevron USA Inc.

Dear Scott -

We are in receipt of the superseding authorization for Chevron USA's station E900688 and thank your staff for its wonderful support and assistance with the application that sought to add a secondary hub and additional remote antennas.

Our copy of the license, and MyIBFS software, indicates that the call sign was inadvertently changed from E900688 to 040E900688. A copy of the current authorization is attached.

Will you please provide us with direction on what we can do to secure a replacement authorization that reflects the call sign E900688?

Your assistance is greatly appreciated.

Thank you, Elizabeth
