Yes, the filing attachments are the same. I do not know what is going on with the attachment. When I entered the attachment, it told me it attached successfully. I will be glad to resend this to you if you would like, but it is the same.

Please let me know what I can do to help. I greatly appreciate your attention and help to this issue.

Thank you,
Laura Birkelbach

Hi Laura,

I receive the information requested on the attachment for the above file, and I thank you. But Now you filed another application same applicant with the same problem, what is up with this 1.meter attachment that you can not seem to get filed over like the others? The question here, is this filing attachment information the same as the one above that you sent me?

Thanks
Eleanor M. Lott

Eleanor,

I apologize for all the trouble. My system is telling me it will not send the files to you. Sooooo. I am having Gary Neiryneck, who works here also but is at a different building, try to send you the files.

Let me know if you get them and, if not, I will come up with another solution.

Tks,
Laura

Hello Laura,

One of your attachment that was submitted with your application filing above did not come over correctly and was damaged. So could you submit that attachment to me so I can upload to your file. The attachment file information that I need is (Patriot TXINT100KU.p Antenna Pattern for R17, Channel Master 960).

Thank You
Eleanor M. Lott
