Dear Scott,

Attached is a .pdf of the Unofficial Copy of the proposed modified license for Wal-Mart's station E940457.

In the Particulars of Operations (Part B), line items 28-31, 67, 69 and 70 include corrections to technical data. Line items 55, 61, 66 and 72 may have been carried over from the current license but are not included on the pending application. Also under the Frequency Coordination (Part C), line items 1, 2, 5 and 6 should not be reflected.

We did notice the correction to the maximum gains for VSAT 4 in the Antenna Facilities portion of the Unofficial Copy. Thank you!

The equipment provider, Hughes Network, has raised the question if the Special Condition 2810 can be removed?

We appreciate you and your staff's assistance with the project. If there are questions, please feel free to contact us.

Best regards.
