Re: Application of BotCorp, Call Sign E990053, SES -MOD-20061005-01808

Dear Mr. Nelson:

This letter is in response to your request for NTIA clearance of a modification of BotCorp America authorization to provide services through the MSV system (SES-MOD-INTR2006-02744). The request involves using the lower end of the "lower L-Band" frequencies.

NTIA has no objection to the BotCorp America modification of its mobile earth station license, nor grant of an STA (SES-STA-20061004-01812) for their operations.

Sincerely,

James Vorhies  
Chief, International Spectrum Plans  
And Policy Division
