#### 43. Description. (Summarize the nature of the application and the services to be provided).

Telenor Satellite, Inc. seeks authority for additional Ku-band ESV operation via its Santa Paula, CA teleport. TSI previously filed an application to authorize up to 550 Ku-band SeaTel terminals for ESV operation via the Satmex-5 satellite and its hub earth station E930320. That application is pending and an STA has been granted. The purpose of this application is to authorize operation of those terminals with a second satellite, AMC-23, and a second hub antenna, E890649.
