Ms. Marlene H. Dortch
Secretary
Federal Communications Commission
Washington, DC 20554

To: International Bureau, Satellite Division
Re: SES-MOD-20070523-00709 (Call Sign KA249)

Dear Ms. Dortch:

Vizada Satellite, Inc. (VSI) submits the following letter at the request of the staff to clarify some points in the above-referenced application to provide c-band ESV service via Santa Paula Teleport.

1. The hub antenna used to provide this service is the 13m Universal antenna that is already licensed under call sign KA249.
2. The answer to question E15 should be no.
3. Our request for waiver should have stated that VSI is requesting a limited waiver of Section 25.205(a) to allow operation with an elevation angle as low as 3.7° when and only when vessels *communicating with* NSS-5 are transiting an area in international waters off the west coast of Mexico.

Respectfully submitted,

VIZADA SATELLITE, INC.

/s/ Keith H. Fagan
