That was a typo. I've deleted the incorrect emission and summarized for your files:

Line #1, 6K72G7D's information should be:

EIRP (dBW) = 45.9

EIRP Den. (dBW/4kHz) = 42.90

Pt (dBW) = -0.45

Pt (Watts) = .90

Pow. Den. (dBW/4kHz) -2.7

Line #2, 36M0G7D information is correct.

EIRP (dBW) = 61.6

EIRP Den. = (dBW/4kHz) 29.07

Pt (dBW) = 16.00

Pt (Watts) = 39.81

Pow. Den. (dBW/4kHz) = -16.5

I apologize for the confusion.
