43. Description. (Summarize the nature of the application and the services to be provided).

MCI Communications Services, Inc (Verizon Business) wishes to add new sub-1.2 meter VSAT antennas to the currently existing VSAT network. This VSAT network provides digital video and data services. The new remote antennas will be used to facilitate customer communication requirements including full-time traffic, back-up services, and disaster recovery such as hurricanes and other natural disasters as well as terrestrial service outages.
