To: Towanda Bryant

Subject: E3131 Amendment

Towanda,

I received the fax and voicemails.

1. Question 28. Please change the answer to the environmental impact to NO.

2. I did not answer questions 30 through 34 because the instructions say " Earth stations applicants not proposing to broadcast, common carrier, aeronautical en route or aeronautical fixed radios station services are not required to respond to Items 30-34".

If I am not interpreting the instructions correctly, then the answers to question 30 through 34 are all no.

3. Elevation West and East are both 5 degrees.

Thanks

Ray Benedict
