

DECLARATION OF CHRISTER VARAN

I, Christer Varan, hereby declare as follows:

1. I am employed by Marlink AS, the company within the Vizada Group ("Vizada") responsible for Satellite Services to ESVs. My title is Director Satellite Capacity & Regulatory Affairs. In that capacity, I am responsible for all Earth Station on Vessel (ESV) operations through Vizada's earth stations, including those in Southbury, CT and Santa Paula, CA.

2. I have read the attached Declaration of Cobham SATCOM – Marine Systems, Sea Tel Products (Sea Tel) executed December 14, 2009, and have worked closely with Sea Tel to ensure that Vizada's ESV operations will be in compliance with the FCC's ESV rules.

3. I am aware that, in order to meet the off-axis EIRP spectral density limits defined in Section 25.222 (a)(1)(i) of the FCC's ESV Rules, the input power to the SeaTel Ku-band ESV antennas must be limited as follows:

1.0 Meter Ku Band, Models 4003, 4006 and 4009 are limited to	-16.3 dBW/4kHz
1.2 Meter Ku Band, Model 5009 is limited to	-14.0 dBW/4kHz
1.5 Meter Ku Band, Models 6006 and 6009 are limited to	-14.0 dBW/4kHz
2.4 Meter Ku Band, Model 9797 is limited to	-14.0 dBW/4kHz

4. Vizada will take all necessary steps to ensure that the input power to the various Sea Tel antennas is limited in the manner described above. Vizada will ensure that the specified power spectral densities are not exceeded by using the appropriate coding. For Ku-band, 3/4 QPSK will typically meet the requirements. Vizada will also monitor absolute power levels, either directly through its hub earth stations or by working with the satellite operators.

I, Christer Varan, declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge and belief.

Executed on: Dec. 15th 2009

Christer Varan
