Application for Modification of License to  
Add up to 500 Sea Tel 1.2 Meter Ku-band, Model 5009 Remote ESV Antennas to its  
Authorization to Provide ESV Service via its Southbury, CT Teleport

Call Sign WB36

By this application applicant Vizada, Inc. (Vizada) seeks authority to add up to 500 Sea Tel 1.2 meter Ku-band, model 5009 remote Earth Station on Vessel (ESV) antennas to its authorization to provide ESV service via its Southbury, CT teleport, call sign WB36. These remote ESVs will be located on vessels traveling in U.S. and international waters. They will operate with hub antennas at Southbury that have already been licensed by the Commission and will be utilized to provide ESV service as previously authorized by the Commission.

Vizada's current WB36 ESV authorization is set forth in the license modification granted March 24, 2009 pursuant to File Number SES-MFS-20080606-00715. The license authorizes Vizada to operate up to 250 Sea Tel model 4003A, 250 model 4006, 50 model 4996T and 400 model 6006 antennas to communicate via any satellite on the Permitted Space Station List (ALSAT) to provide ESV service.

Vizada now seeks authorization to add up to 500 Sea Tel 1.2 meter Ku-band, model 5009 remote antennas to its authorization for the ESV remotes to communicate via any ALSAT satellite to provide ESV service. As with the other Sea Tel antennas previously authorized for ESV service operation of the model 5009 ESV antennas will be in full compliance with the requirements of the Commission's ESV regulations as set forth in part 25 of the Rules.

Vizada's Showing of Compliance with Part 25 of the Commission's Rules follows herewith and the exhibits required by Section 25.222 are included as attachments to the application.
