Washington, DC 20554

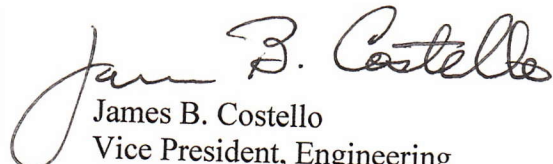

**Re: Row 44 Inc. – Certification of Commencement of Modified  
Operation under Mobile Satellite Earth Station License  
(FCC File No. SES-MOD-20091021-01342; Call Sign E080100)**

Dear Ms. Dortch:

Row 44 Inc. (“Row 44”) hereby notifies the Commission, pursuant to Section 25.133(b) of the FCC’s Rules (47 C.F.R. § 25.133(b)) and Condition 2938 of its license, that it began deployment on May 8, 2010 of additional Ku-band Earth station antennas as authorized in the above-referenced modification to its aeronautical mobile Earth station blanket license (Call Sign E080100). The referenced modification application was granted on January 20, 2010. At that time, operations using several installations of a previously authorized antenna (Remote #1) were already ongoing pursuant to its original license (SES-LIC-20080508-00570) – and, for the initial period of operation, pursuant to a series of pre-grant Special Temporary Authorizations (*see* FCC File Nos. SES-STA-20080711-00928, SES-STA-20090417-00507, and SES-STA-20090709-00854).

This letter certifies that the antennas authorized under File No. SES-MOD-20091021-01342 (designated Remote #2) are being deployed consistent with Row 44’s modified license, and that the initial TECOM antenna in this network has been tested and is within 2 dB of the pattern specified in §25.209 of the FCC’s Rules. *See* 47 C.F.R. § 25.209. Moreover, the authorized Earth stations will remain operational during the license period ending August 5, 2024, unless submitted for cancellation.

Respectfully submitted,

  
James B. Costello  
Vice President, Engineering
