Towanda,

To address the power issues, we would like to substitute the following values in Items E47, E48 and E49 for the Transmit frequencies 14000-14500 as follows:

Emission Des	Max. EIRP/carrier	Max. EIRP Density
2M50G7W	68.4	40.4
12M0G7W	68.4	23.6

The same emission designators should be substituted for Item E47 for the Receive frequencies of 11700-12200.

Please let me know if you have any questions. We appreciate your cooperation.
