Subject: E000232 STA (SES-STA-20110719-00839) and Mod App (SES-MOD-20110720-00843): Supplement

Towanda,

As requested, the following supplemental information is submitted to clarify the above-referenced applications:

1. For the frequency band of 5850-5925 MHz band, Allen Holdings Inc. (i) is aware of the co-primary Federal Government radiolocation allocation in the 5850-5925 MHz band in the U.S. and Possessions; (ii) is aware of the potential electromagnetic compatibility issues in the frequency band; and (iii) agrees to accept this potential for unacceptable interference that may be caused to its communication links by radiolocation systems, including high-powered land-based transportable and shipborne radar transmitter operating in the frequency band in accordance with footnote G2.
2. Schedule B, Item 23: NSS-9 is specified as a point of communication. Although, noted in Form 312, Question 43- Description, this POC was inadvertently omitted from Schedule B.
3. The 11M antenna will transmit only and only using NSS-9 as the point of communication.

If you need anything else, please let us know.

Thanks,

Frank
