Re: Modification of License, E960499, SES-RWL-20070320-00375

Pursuant to §25.117<sup>1</sup> of the Rules and Regulations (“Regulations”) of the Federal Communications Commission, Harris CapRock Communications, Inc., by way of the underlying application, respectfully requests modification of an existing earth station license. The modification consists of adding a new Andrew C-band 3.7m antenna as well as new emission designators.

A frequency coordination study was conducted and the results of the study indicate that no unacceptable interference will result with existing, proposed or prior coordinated radio facilities.

Sincerely,

*/s/ Raul Magallanes*
