Re: ISAT US Inc., IBFS File Nos. SES-LIC-20090217-00184 (Call Sign E090032);
SES-MOD-20101101-01391

Dear Ms. Dortch:

ISAT US Inc. (“Inmarsat”) hereby notifies the Commission that Inmarsat has begun offering service, through its retail partners, using a new model of the IsatPhone Pro¹ -- the IsatPhone². This configuration is electrically identical to that already authorized by the Commission, although the IsatPhone² will have a slightly different form factor.² The IsatPhone² will also have the same shut-off time of less than three seconds as the IsatPhone Pro and otherwise operate in a similar manner.³ Although Inmarsat does not require prior approval from the Commission to offer service using this new configuration, Inmarsat is filing this notice to ensure that the Commission is informed with respect to this development.

Please contact the undersigned if you have any questions.

Sincerely,

Christopher J. Murphy
Vice President, Government Affairs

¹ See IBFS File No. SES-MOD-20100323-00347 (Call Sign E090032) granted August 2, 2010.

² See FCC Grant of Equipment Authorization, February 27, 2014; FCC Identifier YCT-ISATPHONE2 to grantee, Inmarsat Limited.

³ The IsatPhone Pro Inmarsat blanket MSS earth station license modification application in 2010 incorporated by reference the detailed showing addressing compliance with Section 25.136(d) that Inmarsat made in its initial blanket license application. See Exhibit E of IBFS File No. SES-LIC-20090217-00184. As Inmarsat explained in the modification application (at Exhibit E, Section D), “[t]hat showing remains equally applicable to the IsatPhone” and “operations of the IsatPhone² will comply with [Section 25.136(d)] requirements in the same manner.
