

RADIATION HAZARD REPORT

This modification application requests authority for a second 7.2 meter General Dynamics antenna at the site of earth station E080185. The new antenna is the same model as the antenna currently authorized under the E080185 license. Sirius XM incorporates by reference the radiation hazard analysis that was submitted with the initial E080185 license application, see File No. SES-LIC-20080814-01063, Attachment A.
