Hi Towanda,

When reviewing the application further, I noticed that I did not include the 20M0G7D emission designator for the 28350-29100 and 29500-30000 frequencies.

To correct the omission, I would like to add two entries to the application:

Upper/Lower Frequency: 28350 / 29100 MHz
T/R Mode: T
Polarization: Left and Right Circular
Emission Designator: 20M0G7D
Max EIRP per Carrier: 54
Max EIRP Density per Carrier: 17
Mod and Services: 20 MBd PSK, Digital Carrier

Upper/Lower Frequency: 29500 / 30000 MHz
T/R Mode: T
Polarization: Left and Right Circular
Emission Designator: 20M0G7D
Max EIRP per Carrier: 54
Max EIRP Density per Carrier: 17
Mod and Services: 20 MBd PSK, Digital Carrier

Thanks and regards,

Daryl
