Re: File No. SES-MOD-20140801-00628, Call Sign KA272

Dear Mr. Blais:

SES Americom, Inc. ("SES"), hereby corrects a typographical error in E.11 of Schedule B of the above-referenced modification application. Specifically, the latitude for the earth station should read 34° 19' 31.0" N (rather than 39° 19' 31.0" N), consistent with the current licenced coordinates for KA272 and the coordination report submitted with the modification application. SES is not seeking authority to change the location of the antenna. SES regrets any inconvenience caused by this typographical error.

Please address any questions concerning this submission to the undersigned.

Respectfully submitted,

/s/ Daniel C.H. Mah
