Re: License Modification #E050143 – FCC Form 312 (iHeartMedia + Entertainment, Inc.)

Dear Ms. Dortch:

iHeartMedia + Entertainment, Inc. (“IHM”) hereby submits FCC Form 312 requesting a Modification of License for Call Sign E050143.

Please accept this letter of request as a supplement to IHM’s FCC Form 312 for the modification of its license #E050143. The herein application for Modification of License involves requests for the authorization to add antenna, the relocation of Site IDs to reflect address changes to the new local address for the Remote Control Points on the license and a change in the emission designator for a select number of Site IDs/Antenna Facilities. The requested modifications are listed as below:

Relocation of Site IDs

IHM would like to relocate the base location for the two Remote Control Points (“RCP”)(though, all antenna-specific information shall remain the same):

SITE ID, Antenna ID, (RCP)	OLD Address	NEW Address & Phone Number	Latitude & Longitude	Elevation (Meters)	NAD
TT0753.75M, TT0753.7, (RCP)	7042 S. Revere Parkway Suite 450 Centennial, Arapahoe, CO 80112	76 Inverness Drive East, Suite B Englewood, Arapahoe, CO 80112 303-925-1708	NA	NA	NA
TT09612.96M,	7042 S. Revere	76 Inverness Drive	NA	NA	NA

TT09612.9, (RCP)	Parkway Suite 450 Centennial, Arapahoe, CO 80112	East, Suite B Englewood, Arapahoe, CO 80112 303-925-1708			
---------------------	--------------------------------------------------------------	----------------------------------------------------------------------	--	--	--

Authorization to Add Antenna

IHM seeks authorization to add antennas, specifically, antennas that had been previously licensed in IHM’s license for Call Sign E000329. Schedule B for the three new site IDs (and the four antenna entries) has been submitted on IBFS. Authorization is sought for the following site IDs: SCM1_8x2_4, SMN3_7x150 and TT3_7x150.

Change in Emission Designators

IHM has reviewed its licenses and would like to change its licensed Emission Designators to properly reflect a correction in its calculated Transmission Symbol Rates (“TSR Rates”). The new Emission Designators and corresponding changes to the EIRP parameters are listed below. Schedule B has been submitted on IBFS for all of the change requests listed below.

Site ID, Antenna ID	Current Emission Designation (Tx/Rx Mode)	NEW Emission Designation	NEW Max EIRP per Carrier (dBW)	New Maximum EIRP Density per Carrier (dBW/4kHz)
CCSS INV 6.1A, INV 6.1	3M80G7D (T)	6M00G7W (T)	77.41	47.3
