To Whom It May Concern:

MCI Communications Services, Inc (Verizon) wishes to add an additional VSAT hub and remote VSAT antennas to the current existing VSAT network Call Sign E070068. The VSAT network will provide digital video and data services. The new antennas will be used to facilitate customer communication requirements including full-time traffic, back-up services, and disaster recovery such as hurricanes and other natural disasters as well as terrestrial service outages.

Best Regards,

April Yalenezian
