

UNITED STATES OF AMERICA
FEDERAL COMMUNICATIONS COMMISSION
RADIO STATION AUTHORIZATION

Alascom, Inc.

Call Sign: E2227

Authorization Type: Modification of License

File Number: SES-MOD-20151021-00756

Common Carrier

Grant date: 12/30/2015

Expiration Date: 05/29/2026

Nature of Service: Fixed Satellite Service

Class of Station: Fixed Earth Stations

A) Site Location(s)

#	Site ID	Address	Latitude	Longitude	Elevation (Meters)	Special Provisions NAD (Refer to Section H)
1)	1	CHIGNIK LAKE, CHIGNIK, AK 99548	56°15'17.6"N	158°46'4.7"W	14.363	83

Licensee certifies antenna(s) comply with gain patterns specified in Section 25.209

Subject to the provisions of the Communications Act of 1934, The Communications Satellite Act of 1962, subsequent acts and treaties, and all present and future regulations made by this Commission, and further subject to the conditions and requirements set forth in this license, the grantee is authorized to construct, use and operate the radio facilities described below for radio communications for the term beginning May 29, 2011 (3 AM Eastern Standard Time) and ending May 29, 2026 (3 AM Eastern Standard Time) . The required date of completion of construction and commencement of operation is December 30, 2016 (3 AM Eastern Standard Time) . Grantee must file with the Commission a certification upon completion of construction and commencement of operation.

B) Particulars of Operations

The General Provision 1010 applies to all receiving frequency bands.

The General Provision 1900 applies to all transmitting frequency bands.

For the text of these provisions, refer to Section H.

#	Frequency (MHz)	Polarization Code	Emission	Tx/Rx Mode	Max EIRP /Carrier (dBW)	Max EIRP Density /Carrier (dBW/4kHz)	Associated Antenna	Special Provisions (Refer to Section H)	Modulation/ Services
1)	5925.0000-6425.0000	H, V	15M0G7W	Tx	60.50	24.80	1	1900	VARIOUS PSK & QAM-VOICE AND DATA
2)	5925.0000-6425.0000	H, V	29K0G7W	Tx	52.40	43.80	1	1900	VARIOUS PSK & QAM-VOICE AND DATA
3)	3700.0000-4200.0000	H, V	15M0G7W	Rx			1		VARIOUS PSK & QAM-VOICE AND DATA
4)	3700.0000-4200.0000	H, V	29K0G7W	Rx			1		VARIOUS PSK & QAM-VOICE AND DATA

RADIO STATION AUTHORIZATION

Alascom, Inc.

Call Sign: E2227

Authorization Type: Modification of License

File Number: SES-MOD-20151021-00756

Common Carrier

Grant date: 12/30/2015

Expiration Date: 05/29/2026

C) Frequency Coordination Limits

#	Frequency Limits (MHz)	Satellite Arc (Deg. Long.)		Elevation (Degrees)		Azimuth (Degrees)		Max EIRP Density toward Horizon (dBW/4kHz)	Associated Antenna(s)
		East Limit	West Limit	East Limit	West Limit	East Limit	West Limit		
1)	5925.0000-6425.0000	94.0W-143.0W		05.0-24.4		111.4-161.2		25.95	1
2)	3700.0000-4200.0000	94.0W-143.0W		05.0-24.4		111.4-161.2		0	1

E) Antenna Facilities

Site ID	Antenna ID	Units	Diameter (meters)	Manufacturer	Model number	Site Elevation (Meters)	Max Antenna Height (Meters)	Special Provisions (Refer to Section H)
1	1	1	4.5	ANDREW CORPORATION	ESA45-39239	14.363	7.61 AGL/ 21.94 AMSL	
Max Gains(s): 43.0 dBi @ 4.0000 GHz 46.5 dBi @ 6.0000 GHz Maximum total input power at antenna flange (Watts) = 25.00 Maximum aggregate output EIRP for all carriers (dBW) = 60.50								

F) Remote Control Point:

1	501 EAST BLUFF DRIVE	Call Sign: E2227
	ANCHORAGE, ANCHORAGE, AK 99501	
	800-252-7521	

G) Antenna Structure marking and lighting requirements:

None unless otherwise specified under Special and General Provisions

H) Special and General Provisions

A) This RADIO STATION AUTHORIZATION is granted subject to the following special provisions and general conditions:

1010 --- Applicable to all receiving frequency bands. Emission designator indicates the maximum bandwidth of received signal at associated station(s). Maximum EIRP and maximum EIRP density are not applicable to receive operations.

1900 --- Applicable to all transmitting frequency bands. Authority is granted to transmit any number of RF carriers with the specified parameters on any discrete frequencies within associated band in accordance with the other terms and conditions of this authorization, subject to any additional limitations that may be required to avoid unacceptable levels of inter-satellite interference.

Call Sign: E2227

Authorization Type: Modification of License

File Number: SES-MOD-20151021-00756

Common Carrier

Grant date: 12/30/2015

Expiration Date: 05/29/2026

H) Special and General Provisions

A) This RADIO STATION AUTHORIZATION is granted subject to the following special provisions and general conditions:

- 2010 --- This authorization is issued pursuant to the Commission's Second Report and Order adopted June 16, 1972 (35 FCC 2d 844) and Memorandum, Opinion and Order adopted December 21, 1972 (38 FCC 2d 665) in Docket No. 16495 and is subject to the policies adopted in that proceeding.
- 2034 --- The use of the small diameter earth station antenna facilities is authorized pursuant to the Commission's decision in American Broadcasting Companies, 62 FCC 2d 901 (1976) and Alascom, Inc. (mimeo 00171) released October 10, 1980.
- 2052 --- This authorization is subject to possible revocation or modification as a result of any findings, rules, requirements or other actions which may result from or be promulgated by: a. The proceedings in Common Carrier Docket No. 80-584, In the Matter of Policies Concerning Ownership of Satellite Earth Station in the Bush Communities of Alaska, 81 FCC 2d 304 (1980) and/or b. The proceedings in Common Carrier Docket No. 78-72, In the Matter of MTS and WATS Market Structure, 81 FCC 2d 177 (1980). The geantee is afforded 30 days from the release of this grant to decline this authorization as conditioned. Failure to respond within this period will constitute formal acceptance of the authorization as conditioned.
- 2300 --- Authority is granted to operate this station by remote control provided that: (1) the parameters of the transmissions of this station monitored at the remote control point, and the operational functions sufficient to ensure that the operations of this station are in full compliance with the station authorization at all times; (2) upon detection by the grantee, or upon notification from the Commission, of a deviation of the operation of this station, transmissions shall be immediately suspended until the deviation is corrected, except that transmissions concerning the immediate safety of life or property may be conducted for the duration of such emergency; and (3) the grantee shall have available, at all times, the technical personnel necessary to perform the technical servicing and maintenance of this station expeditiously. See also Public Notice "The International Bureau Provides Guidance Concerning the Relocation of Earth Station Remote Control Points", DA 06-978 (rel. May 4, 2006).
- 2502 --- With respect to potential co-channel interference to or from terrestrial microwave radio stations: receive frequency band (s) listed in Section 1 of this authorization have been cleared for transmissions from and transmit frequency band (s) listed in Section 1 have been cleared for transmissions to satellites located in the portion of the geostationary satellite orbit specified in Section 1 for the emissions designated therein except for those cases where the main beam power density results in a higher EIRP toward the horizon than the maximum specified in Section 1. Transmissions with such higher main beam power densities are authorized only on condition that they shall not cause harmful interference to terrestrial microwave radio stations and shall be immediately reduced to the coordinated power density levels upon notification of interference.
- 2916 --- Transmitter(s) must be turned off during antenna maintenance to ensure compliance with the FCC-specified safety guidelines for human exposure to radiofrequency radiation in the region between the antenna feed and the reflector. Appropriate measures must also be taken to restrict access to other regions in which the earth station's power flux density levels exceed the specified guidelines.
- 2938 --- Upon completion of construction, each licensee must file with the Commission a certification including the following information: (1) name of the licensee, (2) file number of the application, (3) call sign of the antenna, (4) date of the license, (5) certification that the facility as authorized has been completed, (6) certification that each antenna facility has been tested and is within 2 dB of the pattern specified in Section 25.209, and (7) certification that the station is operational (including the date of commencement of service) and will remain operational during the license period unless the license is submitted for cancellation.

RADIO STATION AUTHORIZATION

Alascom, Inc.

Call Sign: E2227

Authorization Type: Modification of License

File Number: SES-MOD-20151021-00756

Common Carrier

Grant date: 12/30/2015

Expiration Date: 05/29/2026

H) Special and General Provisions

A) This RADIO STATION AUTHORIZATION is granted subject to the following special provisions and general conditions:

5215 --- All operations shall be on a common carrier basis.

B) This RADIO STATION AUTHORIZATION is granted subject to the additional conditions specified below:

This authorization is issued on the grantee's representation that the statements contained in the application are true and that the undertakings described will be carried out in good faith.

This authorization shall not be construed in any manner as a finding by the Commission on the question of marking or lighting of the antenna system should future conditions require. The grantee expressly agrees to install such marking or lighting as the Commission may require under the provisions of Section 303(q) of the Communications Act. 47 U.S.C. § 303(q).

Neither this authorization nor the right granted by this authorization shall be assigned or otherwise transferred to any person, firm, company or corporation without the written consent of the Commission. This authorization is subject to the right of use or control by the government of the United States conferred by Section 706 of the Communications Act. 47 U.S.C. § 706. Operation of this station is governed by Part 25 of the Commission's Rules. 47 C.F.R. Part 25.

This authorization shall not vest in the licensee any right to operate this station nor any right in the use of the designated frequencies beyond the term of this license, nor in any other manner than authorized herein.

This authorization is issued on the grantee's representation that the station is in compliance with environmental requirements set forth in Section 1.1307 of the Commission's Rules. 47 C.F.R. § 1.1307.

This authorization is issued on the grantee's representation that the station is in compliance with the Federal Aviation Administration (FAA) requirements as set forth in Section 17.4 of the Commission's Rules. 47 C.F.R. § 17.4.

The following condition applies when this authorization permits construction of or modifies the construction permit of a radio station.

This authorization shall be automatically forfeited if the station does not meet each required construction deadline by the required date of completion unless, before such date(s), a specific application is timely filed to request an extension of the construction deadline(s), supported with good cause why that failure to construct by the required date was due to factors not under control of the grantee.

Licensees are required to pay annual regulatory fees related to this authorization. The requirement to collect annual regulatory fees from regulatees is contained in Public Law 103-66, "The Omnibus Budget Reconciliation Act of 1993." These regulatory fees, which are likely to change each fiscal year, are used to offset costs associated with the Commission's enforcement, public service, international and policy and rulemaking activities. The Commission issues a Report and Order each year, setting the new regulatory fee rates. Receive only earth stations are exempt from payment of regulatory fees.
