Re: 17/24 GHz BSS Blanket Earth Station License
IBFS File No. SES-MOD-20160606-00485
Call Sign E140100

Dear Ms. Dortch:

Pursuant to 47 C.F.R. § 25.133(b)(2) and the terms of the above-referenced blanket earth station license ("License"), as modified and granted on September 21, 2016, DISH Operating L.L.C. ("DISH") submits this notification that the earth station network authorized under the License commenced operations as of September 18, 2017.

Additionally, the undersigned on behalf of DISH certifies under penalty of perjury that the following is true and correct to the best of my current knowledge, information, and belief: a 3.7 meter antenna authorized under the License has been tested and found to perform within authorized gain patterns or off-axis EIRP density levels.

DISH will submit further certification, as required under 47 C.F.R. § 25.133(b)(2), when additional antenna types authorized under the License are first deployed.

Please direct any questions regarding this matter to the undersigned.

Sincerely,

DISH Operating L.L.C.

/s/ Alison A. Minea
