SUBMITTED VIA IBFS

Ms. Marlene H. Dortch, Secretary
Federal Communications Commission
445 Twelfth Street, SW
Washington, DC 20554

**Re: File No. SES-MOD-20160628-00621, Call Sign E8776
Update to Current Authorization**

Dear Ms. Dortch:

Viacom International Inc. (“Viacom”), by its counsel, submits this letter to update the site location of earth station E8776 using the WGS84 coordinate datum in Google Earth. *See International Bureau Addresses Accuracy of Earth Station Location Information in IBFS: Provides Guidance to Earth Station Licensees and Applications*, Public Notice, DA 17-1127 (IB, rel. November 21, 2017). The coordinates of E8776 using the WGS84 coordinate datum are:

Latitude: 40° 49' 15.0” N
Longitude: 73° 15' 18.4” W

Viacom submits this update in the form of a pleading and not modification application, because the updated coordinates are not more than 1 second in latitude or longitude from the coordinates in the authorization. *See* 47 C.F.R. Section 25.118(a)(4)(vi). The updated coordinates should be reflected in IBFS and considered the site location of E8776 for purposes of the Commission’s upcoming certification process.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'E. Kim', written over a white background.

Erin E. Kim
Counsel to Viacom International Inc.
