43. Description. (Summarize the nature of the application and the services to be provided).

Applicant requests modification of WB36 license to 1) Update the specifications listed for certain currently authorized antennas in Section E) of license to increase power authorized for operation of those antennas and change quantities authorized and model number for certain antennas; 2) Add New ESV Remote Antennas to WB36 ESV Authorization; and 3) Consolidate the 27 Site IDs listed in Section A) of current license to 3 Site IDs and then use new Site ID designations in Sections D), E) & F) of license. Please see Exhibit 1 for further details and description of compliance with section 25 of the Commission's rules. Exhibit 1 also suggests the procedure and order to follow to make the changes to Site ID information in A) D), E) & F) of license and Exhibit 2 is a mark up of the current license showing changes being requested.
