Re: Construction of New Receive-Only Earth Station E170001 (SES-REG-20161230-00976) and Construction of Modified Receive-Only Earth Station E050395 (SES-MOD-20161230-00977)

Dear Ms. Dortch:

This letter is to notify the Commission that construction relating to new receive-only Earth Station Authorization E170001, and construction relating to modified receive-only Earth Station E050395, both registered to Hearst Stations Inc. (“Hearst”), pursuant to the Commission’s grant dated February 7, 2017, in File No. SES-REG-20161230-00976 and the Commission’s grant dated February 13, 2017, in File No. SES-MOD-20161230-00977 was completed on August 1, 2007. The receive-only earth stations were constructed prior to the date the registrations were granted, but Hearst voluntarily elected to file these registration applications more recently.

Pursuant to the relevant provisions on each authorization and relevant portions of Rule Section 25.133(d) and (b), Hearst has authorized the undersigned to represent that Hearst’s operation of the earth stations will be in conformance with the authorized parameters, and the earth stations will remain operational during the license period unless the registrations are submitted for cancellation.

If any questions should arise during the course of your consideration of these notifications, it is respectfully requested that you communicate with this office.

Sincerely,

Stephen Hartzell
Counsel to Hearst Stations Inc.
