**SATELLITE POLICY BRANCH INFORMATION
APPLICATIONS ACCEPTED FOR FILING:
IBFS File Nos. SAT-MOD-20170411-00061, SES-MOD-20170412-00422**

Report No. SPB-270

Globalstar License LLC and GUSA License LLC (collectively, “Globalstar”) request a minor modification of their space station and earth station licenses to implement a new Ancillary Terrestrial Component (ATC) using licensed Big LEO mobile satellite service spectrum. The proposed ATC will be a terrestrial low-power network providing wireless broadband service. Both base stations and user terminals will transmit and receive at 2483.5-2495 MHz. Globalstar proposes to operate pursuant to rules adopted in Terrestrial Use of the 2473-2495 MHz Band for Low-Power Mobile Broadband Networks; Amendments to Rules for the Ancillary Terrestrial Component of Mobile Satellite Service Systems, Report and Order, FCC 16-181 (2016).

Accepted for filing. Globalstar’s applications listed above are accepted for filing. The Commission reserves the right to return any application or petition if, upon further examination, it is determined to be defective and not in conformance with the Commission’s rules or policies.

Pleading cycle established. Interested parties may file comments or petitions to deny the applications listed above no later than **June 23, 2017**. Responses to comments and oppositions to petitions must be filed no later than **July 3, 2017**. Replies to oppositions must be filed no later than **July 11, 2017**. Interested parties must file comments or pleadings electronically via the IBFS, <http://licensing.fcc.gov/myibfs/>, in each of the above-captioned file numbers. Petitions, oppositions, and other pleadings filed in response to this notice should conform to section 25.154 of the Commission's rules, unless otherwise noted. 47 CFR § 25.154.
