Washington DC 20554

ATTN: International Bureau, Satellite Division

RE: E080001 (SES-MOD-20180427-00500) Frequency Coordination Report Pleading

To Whom It May Concern:

This is to notify the Commission on behalf of CBS Broadcasting Inc. that formal frequency coordination for Earth station E080001 (SES-MOD-20180427-00500), which is located at the KCBS-TV studio site, has now been successfully completed. Please find the coordination report, Micronet File Number A1820011, attached.

As permitted by waiver pursuant to Public Notice DA 18-398 (April 19, 2018), the application referenced above was initially filed *without* a frequency coordination report. The authorization, which was granted June 25, 2018, contains Condition Code 90472, stating that the Earth station is not entitled to protection from stations operating in the fixed service. Now that the coordination report is available, we respectfully request to have this language replaced by Condition Code 90471, stating that the Earth station is protected within the limits established by the attached report. It is understood that this change will require the application to be placed back on the Accepted for Filing Public Notice.

Please contact the undersigned if you have any questions.

Sincerely,

Daniel G. Ryson
Associate Director of Spectrum Management
CBS Communications Services Inc.

SUPPLEMENTAL SHOWING PART 101.103(D)

File Number: A1820011
Licensee: CBS BROADCASTING INC.

3.70 GHz

Page 1

Pursuant to Parts 25.203 and 101.103(d) of the FCC Rules and Regulations, a frequency coordination study was conducted by Micronet Communications, Inc. for the following proposed earth station:

KCBS-TV, CA

The results of the study indicate that no unacceptable interference will result with existing, proposed or prior coordinated radio facilities.

Coordination was performed with existing, proposed and prior coordinated carriers within coordination range on the following dates:

07/31/2018 Original PCN

There were no unresolved interference objections.

The attached coordination data was forwarded on the latest date to the following parties within coordination range or their authorized coordination agents:

AMERICAN TOWER, LLC
COMSEARCH INC

Respectfully Submitted,

Jeremy Lewis
Systems Engineer
