Re: Supplement to SES-MOD-20190417-00528

Dear Ms. Dortch:

By this letter, ISAT US Inc. (“ISAT”) updates the above-referenced application to correct a discrepancy in the Form 312 listed points of communication. Specifically, in the response to Question 43, ISAT explains that the requested modification is to add new terminal types to communicate with the Inmarsat 5F2 and Inmarsat 5F3 satellites. However, in Schedule B Item E21 for each of the three terminals (Site Identifiers 14, 15 and 16), the point of communication is listed as the ISAT List. The correct response to Item E21 for each terminal is Inmarsat 5F2 55.0 W.L. and Inmarsat 5F3 179.6 E.L.

Please contact the undersigned if you have any questions.

Thank you.

Respectfully submitted,

WILKINSON BARKER KNAUER, LLP
