

**RESPONSE TO QUESTION 42:  
NON-U.S. LICENSED SATELLITES**

The Commission has granted U.S. market access to the non-U.S. licensed satellite, Telstar 19 VANTAGE (“T19V”), call sign S2955, with which the earth station that is the subject of this application will communicate.<sup>1</sup> Information responsive to Section 25.137(b) of the Commission’s rules was provided to the Commission in connection with that grant<sup>2</sup> and is hereby incorporated by reference.

---

<sup>1</sup> See, FCC Call sign S2955, IBFS File No. SAT-PPL-20160225-00020, granted Aug 31, 2016.

<sup>2</sup> See, In re Telesat International Limited, Petition for Declaratory Ruling to Add Telstar 19 VANTAGE, a Ku-band and Ka-band Satellite, to the Permitted Space Station List, IBFS File No. SAT-PPL-20160225-00020, filed Feb 25, 2016.
