Re: Correction to Application to Modify Call Sign E090001
IBFS File No. SES-MOD-20210316-00516

Dear Ms. Dortch:

On March 16, 2021, we filed on behalf of KVH Industries, Inc., the above referenced application to modify call sign E090001 to add a new antenna, model number V30. We are filing this letter to correct the data entries provided for questions E52 and E53 of FCC Form 312, Schedule B. The form should indicate that the frequency limits for the receive frequencies are 10950-11200 MHz and 11450-12200 MHz, and the frequency limits for the transmit frequencies are 14000-14500 MHz.

Thank you for your attention to these matters. Please contact the undersigned if you have any questions.

Sincerely,

Bruce A. Olcott
