

EXHIBIT

WFXT (Boston), LLC ("WFXT") is the licensee of receive-only earth station E190826.

Two of the antennas listed on the authorization for E190826 are duplicates of antenna registered under authorization E000476. Therefore, the antennas, listed as 7 and 8 in the E) Antenna Facilities section on the authorization (Andrew ES45P, 4.5 meters), should be deleted from the E190826 authorization.

The other Andrew antennas, listed as 5 and 6 in the E) Antenna Facilities section on the authorization (Andrew ES45P, 4.5 meters), should remain on the authorization.

Due to the constraints of IBFS Form 312 modification application, the form only allows for addition of new data, not removal of old.

WFXT requests the modification of its license E190826 to delete the two Andrew antennas (7 & 8) and to re-issue the license.
