

Nature of Application Exhibit

The registrant of E180334 was forced to move facilities in early 2019 such that the registrant was unable to maintain the antennas listed on the current registration (SES-REG-20180515-00720 (the "Registration")) at the Site listed on the Registration. The registrant has also decommissioned one unit of Antenna ID 2 on the Registration. Accordingly, the registrant respectfully requests belated modification of the Registration to: (1) change Site ID 1 listed on the Registration to: 2040 Sixth Street, Sarasota, Florida 34237; 27° 20' 26.17" N; 82° 31' 47.62" W; (2) add a Site ID 2 to the Registration with the following information: 5205 Fruitville Road, Sarasota, Florida 34232; 27° 20' 20.94" N; 82° 27' 53.58" W; (3) associate the newly added Site ID 2 with Antenna ID 2 on the Registration; and (4) change Antenna ID 2 to reflect 1 unit, rather than 2. The registrant further respectfully requests waiver of any and all Commission rules required to make such changes so that the registrant can ensure that the community served by locally focused WSNN-LD will continue to receive the programming provided by E180334.
