

PURPOSE OF APPLICATION

This application seeks to modify the authority previously granted by the Commission (in SES-MFS-20220214-00175) for earth station E190068 to add SES-12 as a point of communications. Subsequent to that grant, communications to SES-12 were terminated as of July 15, 2022. Thus, this application requests a modification of SES-MFS-20220214-00175 to delete SES-12 as a point of communications. No other modification of SES-MFS-20220214-00175 is requested at this time.
