

EXHIBIT

Scripps Broadcasting Holdings, LLC ("Scripps") is the licensee of KRIS-TV, Corpus Christi, Texas, and registrant of Receive-Only Earth Station E190469.

The instant application proposes to remove Antenna S4 (Patriot 3.8 meter) as it is a Ku band antenna. Due to the constraints of IBFS Form 312 modification applications, the form only allows for addition of new data, not removal of old.

All other technical data on the registration remains accurate.

Scripps requests the modification of its license E190469 to remove Antenna S4 and to re-issue the license.
