

EXHIBIT

Camelot Media Holdings, Inc. (“CMG”) is the 100% owner of Camelot Radio Buyer, LLC (“Dayton-Radio”) and Miami Valley Broadcasting Corporation (“MVBC”), which are licensees of broadcasting stations in the Dayton, Ohio, market. Each licensee has an authorization for a receive-only earth station, E180014 – Dayton-Radio, and E110159 – MVBC.

Both earth station registrations reference the same antenna, listed as Antenna 1 on both authorizations, an Antenna Tech Corp Simulsat 5m antenna. The instant application proposes to modify the Dayton-Radio authorization, E180014, to remove Antenna 1 (Antenna Tech Corp Simulsat 5m). Due to the constraints of IBFS Form 312 modification applications, the form only allows for addition of new data, not removal of old.

Dayton-Radio requests the modification of its license E180014 to remove Antenna 1 and to re-issue the license.
