Subject: Registration Receive-Only Earth Station
Hello Ms. Kernes,

You file a Application for a Receive-Only Registration on September 15, 03, and on your Application Technical Data form 312 for the Frequency Coord, one of your items for Range of Satellite Arc Eastern Limit you have 60W; and on your Frequency Coordination Data sheet you have for the Range of Satellite Arc Eastern Limit 90W, so which is the correct answer for this item? I need this information in order for your application to be place on Public Notice.

Thank You
Eleanor
