Subject: SES REG INTR200302427

Eleanor, there was a typo on the street address for an earth station that was filed by Comsearch on 12/02/03 for Licensee: Pacifica Foundation, Inc, File Number: SES REG INTR200302427. This was a C-band R/O earth station in North Hollywood, Ca.

The correct antenna site address should be: 3729 Cahuenga Blvd. West, North Hollywood, Ca. 91604.

Is there anyway we can get this updated now, rather filing than filing an amendment?

We appreciate any help that you can give us on this one.

Thanks,

Gary
