Application for a Receive-only earth station requesting 12 GHz frequency (Ku-band) was submitted.

The Commission does not license Ku-band 12 GHz frequencies for receive-only stations, in accordance with Memorandum Opinion and Order, CC Docket No. 78-734, (adopted December 9, 1986). It was decided that a licensing program for receive-only earth stations operating in the 12 GHz frequency band was unnecessary because there are no other primary users in this spectrum.

Receive-only earth stations are licensed for the 4 GHz C-band only.

We have dismissed your application and are herewith returning without action and/or prejudice.

Sincerely,

Georgia Mallari
